

Supplemental Community-Based Organizations (CBO) Grant to Support Student Learning Awardees

The Office of Superintendent of Public Instruction (OSPI) announces the following community-based organizations (CBOs) have been selected to receive the Supplemental Community-Based Organizations (CBO) Grant to Support Student Learning. OSPI identified \$1.9 million dollars in unspent Elementary and Secondary School Emergency Relief funds (ESSER funds) through the CARES Act funds from the 2020 allocations which needed to be committed for use by April 29, 2021, and used a supplemental competitive grant process to allocate grants to CBOs who applied, but had not been selected, in the first round.
