Actual levy percentages equal actual excess general fund levies plus LEA allocations as a percent of the levy base adjusted for nonresident transfers.

Levy authority is the maximum excess general fund levy permitted by RCW 84.52.0531, the Levy Lid Law.

Levy rollbacks occur when a district collects less than voters have approved.

Local effort assistance (LEA) is state matching money paid on levies in districts with high tax rates due to low assessed valuations.

\* Resident students are 2016–2017 annual average full-time equivalent (FTE) students. High school students residing in nonhigh school districts and students enrolled in interdistrict cooperatives are included in the enrollment of the district in which they reside and are not included in the enrollment of the district in which they are served.
