Equity Statement

Each student, family, and community possesses strengths and cultural knowledge that benefits their peers, educators, and schools.

Ensuring educational equity:

- Goes beyond equality; it requires education leaders to examine the ways current policies and practices result in disparate outcomes for our students of color, students living in poverty, students receiving special education and English Learner services, students who identify as LGBTQ+, and highly mobile student populations.
- Requires education leaders to develop an understanding of historical contexts; engage students, families, and community representatives as partners in decision-making; and actively dismantle systemic barriers, replacing them with policies and practices that ensure all students have access to the instruction and support they need to succeed in our schools.

Tribal Land Acknowledgement

I would like to acknowledge the Indigenous people who have stewarded this land since time immemorial and who still inhabit the area today, the Steh-Chass Band of Indigenous people of the Squaxin Island Tribe.

Cultural Moment of Silence

We would like to acknowledge the history of this nation, one fraught with contradictions. For too long, this country has elevated a story of democracy and freedom while minimizing the impact of violence and oppression on marginalized communities, communities on whose backs this nation was built.

Today, members of our Black and Asian communities, and other communities of color, continue to experience racism through police brutality, mass incarceration, inequitable education and health services, deportation, and other forms of subjugation. We aim to disrupt the legacy of systemic racism by centering racial equity and justice in our work. This is how we stand with our communities of color.

Before we begin, we want to offer a moment of silence to consider these words and how you might join us in this work.
