Support your students with EANS Allowable Services

Catapult Learning offers a comprehensive portfolio of services that can be purchased using EANS funding. Our flexible implementation and delivery model allow us to tailor these services to best meet your needs. Today, Catapult Learning is working with schools and districts throughout the United States to develop customized EANS Service packages to help maximize the funding you've received.

All services will be delivered under the supervision of our regionally-embedded operations and delivery team, and are inclusive of staff supervision, monitoring for outcomes, and required reporting to school and district leaders.

Catapult Learning Service	Service Highlights
<p>Supplemental Instruction: Small-Group Intervention</p> 	<p>Leveraging our <i>Achieve Curriculum</i> for ELA and Math, Catapult Learning’s Small-group intervention is a research-based program designed to improve academic outcomes for your students. Students that participate in this programming will:</p> <ul style="list-style-type: none"> • Engage with research-based and standards-aligned ELA and Math content using research-based best practices for students in the intervention setting • Engage in diagnostic and ongoing assessment to provide baseline and growth data; Instructors track student progress, provide targeted feedback, and plan differentiated instruction • Encounter high-interest and age-appropriate texts and real-world problems that allow them to use strategies and procedures they can transfer to their core classrooms • Discuss and reflect on key concepts and ideas through carefully designed routines and reflection time • Increase motivation and build confidence in a small group setting with responsive teachers providing targeted support
<p>Supplemental Instruction: High-Dosage Tutoring</p>	<p>High-Dosage Tutoring uses our proprietary <i>Accelerate</i> curricula to augment core instruction and ensure that students are successful in grade-level work, accelerate growth, and recover from unfinished learning due to disruptions from Covid. To do so, instructors work to align instruction to core instruction to reinforce pre-requisite</p>

content, empowering students to successfully engage in grade level work. Students that participate in this programming will:

- Engage with an intentionally-sequenced curriculum that provides instruction in the most important prerequisite concepts and skills that will allow students to then engage with grade-level content
- Focus on the most important concepts and standards within a grade level
- Engage in diagnostics ongoing assessment to diagnose learning strengths and learning gaps, and provide up-to-date growth data to inform instruction
- Receive instruction using research-based best practices; students encounter strategies and procedures they can transfer to their core classroom learning
- Increase motivation and build confidence in an intensive 4:1 setting with responsive tutors who provide targeted support

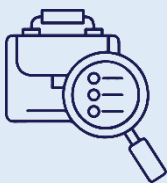

Summer Programming

Summer Programming is a great way to keep students and families engaged, combatting both unfinished learning from disruptions due to COVID and/or summer related learning loss. Catapult Learning's summer programming provides students a fun, safe, engaging environment for students to make the most of their summers. Based on the needs in your schools, you choose summer programming that incorporates enrichment such as STEM, Robotics, and virtual field trips, as well as Social-Emotional programming. Students that participate in this programming will:

- Engage with an intentionally-sequenced curriculum that provides instruction in the most important concepts and standards to prepare students for the fall in ELA and/or Math
- Receive instruction using research-based best practices for students who need support; students encounter strategies and procedures they can transfer to their classroom in the fall
- Participate in fun, engaging, and age-appropriate enrichment activities intentionally designed to stimulate interest, curiosity and enjoyment

Learning Bags

Learnings Bags are a cost-effective way to supply students with engaging resources that keep them captivated and ready to learn, all in a convenient carrying bag. Bags are available in a variety of styles, themes, colors, and sizes, and are tailored to students' learning needs and interests. Students receiving Catapult Learning bags will:

- Encounter intentionally curated materials designed to support grade-level learning
- Engage with age-appropriate and engaging materials intentionally designed to stimulate interest and curiosity
