

Certificated Teacher Focused Summative Scoring Document

Criterion 5: Danielson Framework (2022)

The purpose of this document is to capture the progress over the course of the year and to facilitate a growth-focused conversation.

Teacher: _____	Grade Level(s): _____	Date: _____
Evaluator: _____	District/School: _____	School Year: _____
Comprehensive Evaluation Score*: _____	From School Year: _____	

*The final focus summative rating will be the same as the Comprehensive score unless it is a 3 and evidence during this evaluation period indicates a level 4 practice.

Criterion 5: Fostering and managing a safe, positive learning environment

	Unsatisfactory	Basic	Proficient	Distinguished
2a: Creating an Environment of Respect and Rapport	Students do not feel safe and valued: learning environments are characterized by negativity, disrespect, inappropriateness, insensitivity, and/or unresolved conflict.	Learning environments are partially characterized by caring and respectful interactions.	Learning environments are characterized by positive developmental relationships that are intentionally nurtured and celebrated.	Students play an active role in creating learning environments characterized by a sense of community, or each member feels safe, valued, and connected.

	Unsatisfactory	Basic	Proficient	Distinguished
2c: Managing Classroom Procedures	Student learning and development are hindered by a lack of routines or inefficient classroom procedures.	Classroom routines and procedures established or managed primarily by the teacher and taught explicitly to students, support opportunities for learning and development.	Shared routines and efficient procedures are largely student directed and maximize opportunities for student learning and development.	Students have an active voice and play an active role in designing and adjusting routines and procedures that actively create a respectful learning environment and support the growth of each community member.
2d: Managing Student Behavior	There is little evidence of explicit modeling, instruction, or guidance related to positive student behaviors.	Positive behaviors are modeled by the teacher and occasionally taught explicitly.	Students display positive behaviors, which are modeled by the teacher and reinforced to promote reflection and recalibration rather than compliance.	Students consistently and independently display positive behaviors and seek opportunities to build a better classroom community.
2e: Organizing Physical Space	Learning spaces are unsafe, inaccessible, and/or not conducive to learning and development.	Learning spaces are safe and accessible; the arrangement and use of resources partially support student learning and development.	Learning spaces are thoughtfully designed to address the needs of individual learners within the context of shared experiences.	Learning spaces are thoughtfully co-designed and modified as needed by members of the learning community to address the needs of individuals and create collaborative, joyful spaces for all to learn and grow.
3.1: Establish Student Growth Goals	The teacher does not develop a student growth goal for a group of students within a class who are not	The teacher develops a student growth goal for a group of students within a class who are not yet reaching full learning potential. Reflective Questions:
<p>As we look toward next year, do you feel that your practice would be enhanced by continuing with this criterion? Or, might it be time to consider further developing your skills with a different criterion?</p>
<p>Given your response to the previous question, what supports can I, as your evaluator, provide for you to maximize your growth next year?</p>

Both signatures required. Signing of this instrument acknowledges participation in but not necessarily concurrence with the evaluation. (Attach teacher comments if desired.)
