Media Literacy & Digital Citizenship Learning Opportunities for K-12 Educators

Organizations/Conferences

- The UW's <u>Center for an Informed Public</u> hosts an annual <u>MisinfoDay</u> for secondary students.
- <u>Teachers for an Informed Public</u> meets online once a month as a PLC for educators who
 teach media literacy. Founders Shawn Lee and Liz Crouse also offer workshops on how to
 teach their <u>Digital Survival Skills</u> curriculum.
- ISTE (<u>International Society for Technology in Education</u>) offers various digital citizenship-related professional development opportunities.
- NAMLE (<u>National Association for Media Literacy Education</u>) hosts an annual conference, as well as an annual <u>Media Literacy Week</u>.
- NCCE (Northwest Council for Computer Education) hosts an annual conference that includes sessions related to media literacy or digital citizenship.

Specific Curriculum

- The <u>Center for Media Literacy</u> offers self-guided online courses about media literacy concepts.
- The Stanford History Education Group has a <u>professional learning framework</u> to help you learn how to use their <u>Civic Online Reasoning curriculum</u>. They also periodically offer live online training in the use of the curriculum, for a fee.
- <u>Common Sense Education</u> offers free self-paced training and hosts live events focused on their digital citizenship curriculum.
- <u>Jennifer LaGarde</u> periodically offers book clubs for digging into her book, "Developing Digital Detectives."
- <u>KQED Teach</u> offers a series of online courses on media literacy & media making. They also offer a path towards <u>PBS Media Literacy Education Certification</u>.
- The <u>News Literacy Project</u> offers various free opportunities to learn more about using their resources, including the Checkology platform.
- <u>Project Look Sharp</u> provides <u>videos</u> that demonstrate how to use their media decoding methods with students

Other Opportunities

- <u>Edvolve</u> (Kristen Mattson & LeeAnn Lindsey) offers online courses on teaching digital citizenship, for a fee. There are self-paced courses or districts can pay for live, tailored trainings.
- Lesley James (OSPI) and Kim Weaver (ESD 114) offer a self-paced asynchronous online course called <u>Media Literacy Across the Curriculum</u> that looks at where media literacy shows up in Washington state subject area standards. The course is free but there is a cost for clock hours if you want to collect them at the end.
- The Washington State Library offers a self-guided online course called the <u>Teacher-Librarian</u> <u>Core Curriculum</u> that includes an information literacy & digital citizenship component. <u>Start here</u> to find out more about registering for the course.
