

How Can We Ensure IEP Teams Provide the Most Intensive Supports?

DBI Process

Set individualized goals aligned to instructional outcomes

Pinpoint areas to target through specially designed instruction

Intensify academic and behavioral instruction based on data

Document instructional changes and fidelity

Use Data-Based Individualization (DBI) to Ensure IEP Implementation

Leverage a teaming structure*

Review IEP annually but progress monitor frequently

Communicate with and involve the family

Celebrate successes

Teaming Structures Across the Tiers

	Schoolwide (Core/Tier 1)	Targeted (Tier 2)	Intensive (Tier 3)	Individualized Education Program (IEP) Team
Key Questions	Is the core programming meeting the academic or behavioral needs of most students (e.g., 80% of students)?	Are the targeted supports meeting the academic or behavioral needs of students receiving targeted interventions?	Are the intensive supports meeting the academic or behavioral needs of students with intensive needs?	Are the special education supports and services appropriate and meeting academic or behavioral needs of students with IEPs?
Relevance to Data-Based Individualization	X	X	✓	✓
Team Membership	School/building leadership team, with subcommittees focused on academics and behavior (as needed)	Grade-level or problem-solving teams with representatives from school leadership team subcommittees (as needed)	Student-level team with representatives from problem-solving teams, and personnel with content and data analysis expertise	Similar to intensive support team, with additional members required by IDEA for a multidisciplinary team
Roles and Responsibilities	Develop plan, support implementation, and monitor the effectiveness of Core/Tier 1 programming	Develop plan, support implementation, and monitor the effectiveness of Targeted/Tier 2 programming	Develop plan, support implementation, and monitor the effectiveness of Intensive/Tier 3 programming	Determine special education eligibility, develop an IEP aligned with an intensive support plan, monitor the effectiveness of Intensive programming, and evaluate progress toward IEP goals
Data Sources	Benchmark/universal screening assessments, district assessments, state assessments, discipline referrals	Benchmark/universal screening assessments, progress monitoring measures, behavior “point sheets,” discipline referrals	Academic diagnostic assessments, functional behavior assessment, individual student data across academics and behavior (e.g., work samples, anecdotal or observational data)	Use data from Tiers 1–3 with requirements for special education eligibility and programming (e.g., psychoeducational assessments, speech/language assessments, medical assessments and diagnoses)
Frequency of Data Collection/Data Review	Academics and behavior: Three times per year	Academics: One or more times per month Behavior: One or more times per week	Academics: One or more times per week Behavior: One or more times per day	Progress may use data collected in various tiers of support or may be specific to IEP goals; IEP must be reviewed at least annually
