Entering Claims and Reviewing Accounts

Claim Setup

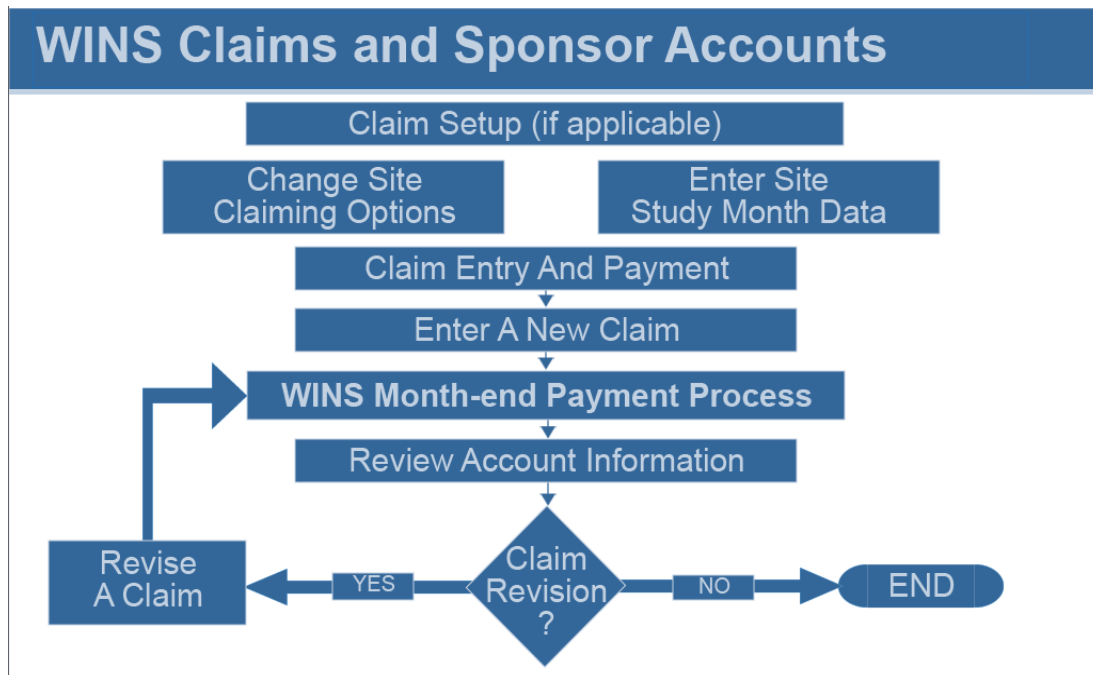

If you participate in School Meal Programs, you can:

Change Site Claiming Option – Most sponsors of School Meal Programs use the “Standard” claiming option. When appropriate, you can submit a request to OSP1 to have your claiming option changed from “Standard” to “Provision 2” or “Community Eligibility Provision”.

If you participate in CACFP Meal Programs, you must:

Enter Site Study Month Data – At the beginning of each program year, sponsors participating in CACFP Meal Programs must provide information about the number of children eligible for free and reduced price meals. This is used to establish the percentage of meals to be paid in each category for the upcoming program year.

Entering Claims and Reviewing Accounts (cont.)

Claim Entry and Payment

Enter a New Claim

Sponsors will select the month they are entering claim data for and enter the information, by site into the WINS claim form. The claim data is edited by the system as it is entered and errors are shown in real-time.

WINS Month-end Payment Process

Each month, payments are processed by OSPI through a WINS Month-end Payment Process. This is an automated process in WINS. If claim data has been entered and is 'OK to Pay', the claim will be processed and payment sent to the sponsor at the end of the month.

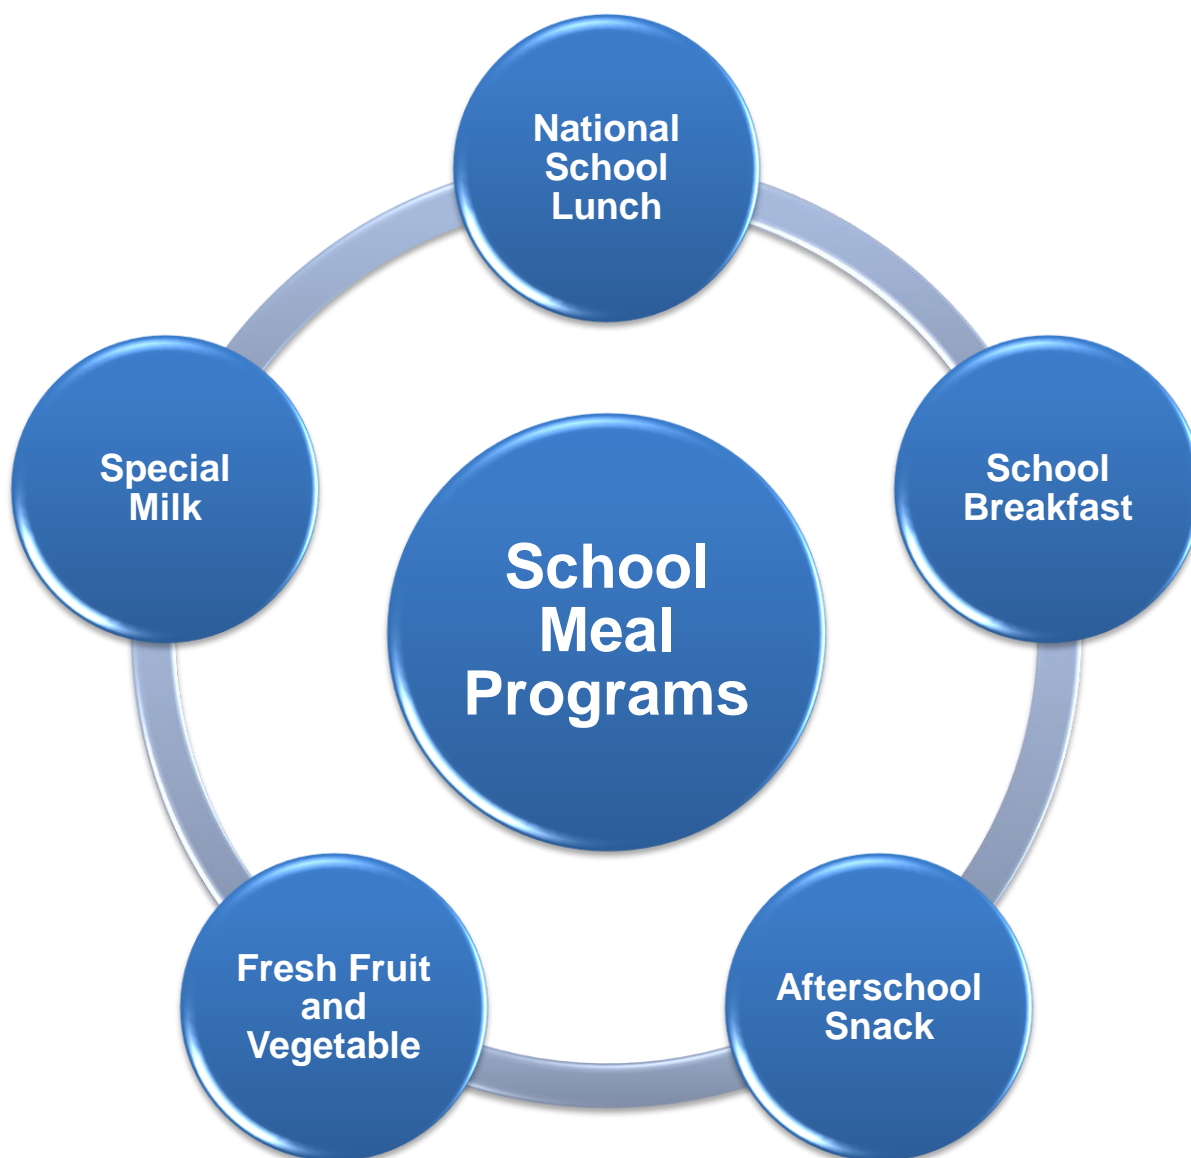

Review Account Information

Before the WINS Month-end Payment Process runs, you can review your account information to see the estimated payment for claims you have entered. After the WINS Month-end Payment Process has run, you can review the payment details and summary of earnings.

Revise a Claim

If a previous claim needs to be revised, you can select that claim and update the claim data. This can result in an increase or a decrease in the amount paid. A claim can only be revised upward (to increase your payment) within 60 days after the month claimed. A claim can be revised downward (to decrease your payment) at any time. If a claim is revised downward, an account receivable will be set up to recover the amount you were overpaid from future payments.

Accounts (1)

- The Accounts tab provides claim information such as a claim summary, earnings summary, payables and receivables, advances, checks received and invoices. Sponsors are encouraged to view the information to better understand the components that determine the actual payment amount provided each month.

Summary (2)

- The Summary screen provides details about the next payment and details about past payments.
- The Next Payment Details section outlines the anticipated payment the sponsor is expected to receive based upon the claim data entered thus far. It is an estimate of the expected payment for claims data entered, but not yet processed.
- The Previous Payment Details section outlines past payments made by WINS. Users can select the month and view all the payment details for that specific monthly WINS payment cycle.

Earnings Summary (3)

- The Earnings Summary screen provides a summary of prior WINS earnings based on the filter criteria selected. Users may filter by program, as well as 'from' and 'to' dates.
