- Strong expertise and experience facilitating complex cross-agency work groups with a focus on outcomes that center social justice and equity, diversity, and inclusion.
- Content expertise in improving education for incarcerated young people, including education program delivery, system structure, accountability, and school finance.
- Ability to convey complex information clearly and effectively in written reports.

Attachment 1 – Sole Source Contract Filing Justification

Specific Problem or Need

- *What is the business need or problem that requires this contract?*

Substitute House Bill (SHB) 1701 of the 2023 Legislative session requires OSPI to develop a timeline and plan for assuming, by September 1, 2027, responsibility for the delivery of basic education services to justice-involved students who are under the age of and served through institutional education programs in facilities that are not under the jurisdiction of the Department of Social and Health Services or the Department of Corrections. Beginning December 2023, and annually thereafter through 2026, OSPI must provide interim reports on progress made in achieving the requirements of the legislation to the governor and the education and fiscal committees of the legislature.

OSPI is required by the Legislation to consult with organizations representing educators and staff that deliver education programming and services to justice-involved students who are under the age of 21 and served through institutional education programs in facilities that are not under the jurisdiction of the department of social and health services or the department of corrections.

Sole Source Criteria

- *Describe the unique features, qualifications, abilities or expertise of the contractor proposed for this sole source contract.*

The Contractor has demonstrated through previous contract experience with OSPI and published works that they are highly capable in leading this effort with contributions in juvenile justice education. AIR has developed relationships with Juvenile Rehabilitation and Institutional Education programs across the U.S. Additionally, AIR has built strong relationships with both lawmakers and Washington Institutional Education providers. Given their previous work, AIR is knowledgeable in the unique needs of Washington state institutional education students.

In 2021, OSPI issued a competitive procurement related to Improving Outcomes in Institutional Education, which deemed AIR as the responsive vendor to facilitate the process for establishing and facilitating an advisory group, and developing recommendations required by House Bill 1295 (of the 2021 Legislative Session).

The Contractor's most recent work with OSPI included the development of Institutional Education legislative reports that led to the passage of the new legislative requirements of SHB 1701. Contractor's past projects including contracting with the Department of Education's National Evaluation and Technical Assistance Center for the Education of Youth Who Are Neglected, Delinquent, or At-Risk, show experience in institutional education, juvenile justice, school finance, social emotional learning, trauma, accountability, education reform, and school climate and safety. Contractor's work spans research, evaluation and technical assistance with an emphasis on the application of evidence-based practices and an equity lens.

- *What kind of market research did the agency conduct to conclude that alternative sources were inappropriate or unavailable? Provide a narrative description of the agency's due diligence in determining the basis for the sole source contract, including methods used by the agency to conduct a review of available sources such as researching trade publications, industry newsletters and the internet; contacting similar service providers; and reviewing statewide pricing trends and/or agreements. Include a list of businesses contacted (if you state that no other businesses were contacted, explain why not), date of contact, method of contact (telephone, mail, e-mail, other), and documentation demonstrating an explanation of why those businesses could not or would not, under any circumstances, perform the contract; or an explanation of why the agency has determined that no businesses other than the prospective contractor can perform the contract.*

A review of the agency resources and personnel determined that OSPI is not sufficiently staffed to adequately fulfill the requests of the legislature within the given timeframe. Given AIR's previous competitively procured contracted work in supporting OSPI in implementing House Bill 1295 regarding requirements to develop recommendations for the establishment, implementation and funding of a reformed institutional education

system, AIR staff members are well positioned and have the historical context necessary to support OSPI in this work.

Through their previous work, AIR developed a survey to identify various models for the structure and governance of institutional education programs across the country. To continue this work, AIR will use this survey to collect more in-depth information on various governance models to provide support to the Washington State Legislative Joint Select Committee.

- *What considerations were given to providing opportunities in this contract for small business, including but not limited to unbundling the goods and/or services acquired.*
The expertise and past history with this contractor to move this work forward is vital in its statewide success. For this reason, a small business was not considered for this work.
- *Provide a detailed and compelling description that includes quantification of the costs and risks mitigated by contracting with this contractor (i.e. learning curve, follow-up nature).*
The extensive engagement with all partners, policies, laws, and regulations through the last 2-year contract with OSPI means that AIR is the only entity able to hit the ground running and begin work immediately, allowing OSPI to meet the legislative timeline, resulting in time and cost savings to the State.
- *Is the agency proposing this sole source contract because of special circumstances such as confidential investigations, copyright restrictions, etc.? If so, please describe.*
No.
- *Is the agency proposing this sole source contract because of unavoidable, critical time delays or issues that prevented the agency from completing this acquisition using a competitive process? If so, please describe. For example, if time constraints are applicable, identify when the agency was on notice of the need for the goods and/or service, the entity that imposed the constraints, explain the authority of that entity to impose them, and provide the timelines within which work must be accomplished.*
No.
- *Is the agency proposing this sole source contract because of a geographic limitation? If the proposed contractor is the only source available in the geographical area, state the basis for this conclusion and the rationale for limiting the size of the geographical area selected.*
No.
- *What are the consequences of not having this sole source filing approved? Describe in detail the impact to the agency and to services it provides if this sole source filing is not approved.*
If this contract is not approved, OSPI does not have time to conduct a competitive procurement in time to complete and submit the required report to the Legislature by

December 2023. Additionally, bringing in a different contractor that does not have a comprehensive, research-based understanding in juvenile justice education reforms already accomplished in Washington state, and the overall nationally recognized expertise that AIR brings, will delay the State's progress and potentially hinder OSPI from meeting the legislatively mandated timelines. Additionally, the Washington State Legislative Joint Select Committee may not receive the most comprehensive and accurate information to help inform their decisions.

Reasonableness of Cost

- *Since competition was not used as the means for procurement, how did the agency conclude that the costs, fees, or rates negotiated are fair and reasonable? Please make a comparison with comparable contracts, use the results of a market survey, or employ some other appropriate means calculated to make such a determination.*

The fees and scope of work were negotiated with Contractor and the scope of work was negotiated by OSPI. The detailed amount of work designated for the available funding is fully commensurate with other funded work within OSPI.

Contractor has worked with OSPI previously in (2021-2023). This knowledge and expertise will save time and money, allowing them to immediately understand the work context, use their expertise to give expert technical assistance and support in juvenile justice education reform.

The amount agreed upon by OSPI and AIR is not to exceed \$135,000 for two years. By comparison, the cost to OSPI is less than the competitive contract that awarded to AIR for initial phases of this work in 2021-23, which was \$500,000 for two years. These contracts are similar in content and scope. OSPI and AIR determined that the agreed upon cost is fair and reasonable for AIR to successfully deliver upon the duties outlined in the contract.

OSPI Americans with Disabilities Act (ADA) Compliance: Graphics & Colors

Because of their disability, many people with low vision do not see webpages the same as others. Some see only small portions of a computer display at one time. Others cannot see text or images that are too small. Still others can only see website content if it appears in specific colors.

For these reasons, many people with low vision use specific color and font settings when they access the Internet – settings that are often very different from those most people use.

For example, many people with low vision need to use high contrast settings, such as bold white or yellow letters on a black background. Others need just the opposite – bold black text on a white or yellow background. And, many must use softer, more subtle color combinations.

Tips for Graphic Creation that is Accessible

- Provide good contrast. Be especially careful with light shades of gray, orange, and yellow.
- Use True Text whenever possible. You can see True Text (TT) next to the font selection in most programs.
- Avoid all caps. All caps can be difficult to read and can be read incorrectly by screen readers.
- Use adequate font size. Font size can vary based on font chosen, but 10 point is usually the minimum.
- Make sure links are recognizable. Differentiate links in the body of the page with underline or bold. Links should clearly tell the user where the link will take them (no "click here" links).
- Don't convey content with color alone. Users

often can't distinguish or may override page colors.
