

Dyslexia and Structured Literacy Instruction

Do You Need Support?

School districts must use evidence-based, multi-tiered systems of support to provide services to students in kindergarten through second grade who show indicators of, or weaknesses associated with, dyslexia.

Educators who provide this support **must** be trained in methods that target students' identified needs.

We Can Help!

The classes listed below are funded by OSPI's English Language Arts (ELA) and Special Education programs and are created in collaboration with partners from OSPI and the state's Regional Literacy Coordinators.

Effective reading instruction is at the core of our practice and training. Our professional learning opportunities will lead you through the foundational elements of literacy, including:

- Phonology
- Orthography
- Etymology
- Morphology
- Syntax
- Semantics

We also offer trainings and host professional learning communities focused on teaching principles and strategies for supporting student growth.
