## 7. Programmatic changes since inception (if any):

None. The focus of the program to provide arts education opportunities has not changed for the past 36 years. Centrum is refocusing faculty preparation and student outreach to better serve the needs of Highly Capable students.

## 8. Program evaluation or evaluation of major findings:

The program is fiscally reviewed monthly and through a final review annually. Due to this proviso funding, these programs are able to be offered at an affordable rate to all participants.

## 9. Major challenges faced by the program:

Major challenges include continuation of the program and funding. The FY 2012–13 allocation was reduced to \$85,000 due to the state's budget shortfall and continued at this rate through FY 2025. The current challenge of public access youth programs for Centrum is returning to pre-Covid enrollment numbers. Student participation numbers have increased in 2022 and 2023 and will likely do so again in 2024.

## 10. **Future opportunities:**

Centrum is strengthening the program's focus on addressing the particular needs of highly capable students by engaging staff and teaching artists in professional development, working with OSPI's staff in this area, and reshaping its marketing to schools and districts. Through staff in-service trainings, outreach to Highly Capable teachers and renewed chaperone recruitment, Centrum strives to better serve the needs of this distinct population.

## 11. **Statutory and/or budget language:**

\$85,000 of the general fund—state appropriation for fiscal year 2022 and \$85,000 of the general fund—state appropriation for fiscal year 2023 are provided solely for the centrum program at Fort Worden state park.
