

2023–24 EdTech Classroom-Based Assessments

Background

Starting this year, the Educational Technology reporting requirement for educational technology assessments administered in the elementary, middle, and high school grades is no longer a separate survey sent out to districts. To meet the legislative requirement ([RCW 28A.230.095](#) and [RCW 28A.655.075](#)), district reporting on these assessments is now included in the annual technology survey sent out to your district's designated Technology Director. This handout is informational and responses to these questions are collected in the annual technology survey.

EdTech Classroom-Based Assessment Questions

1. For the 2023–24 school year, select the grade(s) band(s) assessed:
 - Elementary (K–5)
 - Middle School (6–8)
