

2024–25 Program Review Local Education Agency (LEA) Selection

LEA Selection Process for Participation in Program Review

OSPI used a solely risk or needs based selection process through an annual Program Support Assessment. The LEAs with the highest Program Support Assessment score were selected to participate in Program Review.

The annual Program Support Assessment is based on the following available data and weighted, highest to lowest, in the following order:

1. Last time the LEA participated in Program Review (formerly CPR)
2. Percentage of schools identified for Comprehensive and Targeted Supports as part of the Washington State Improvement Framework (WSIF)
3. Sum of federal Elementary and Secondary School Emergency Relief (ESSER) Funds
4. Sum of federal funds
5. Items not fully implemented in previous Program Review (formerly CPR)
6. Elementary and Secondary Education Act (ESEA) program data

Charter Schools and State-Tribal Education Compact Schools are selected by way of a modified selection process. In the second year of operation or participation, the school will be selected to participate in a limited review. Then a full review in their fourth year. In the following year, they are selected in the same manner as the districts.

LEAs Selected to Participate in 2024–25 Program Review:

Local Education Agency	Type of Review (Limited or Full)
Bainbridge Island School District	Full
