

Media Literacy & Digital Citizenship Learning Opportunities for K–12 Educators

Organizations/Conferences

- The UW's [Center for an Informed Public](#) hosts an annual [MisinfoDay](#) for secondary students.
- [Teachers for an Informed Public](#) meets online once a month as a PLC for educators who teach media literacy. Founders Shawn Lee and Liz Crouse also offer workshops on how to teach their [Digital Survival Skills](#) curriculum.
- ISTE ([International Society for Technology in Education](#)) offers various digital citizenship-related professional development opportunities.
- NAMLE ([National Association for Media Literacy Education](#)) hosts an annual conference, as well as an annual [Media Literacy Week](#).
- NCCE ([Northwest Council for Computer Education](#)) hosts an annual conference that includes sessions related to media literacy or digital citizenship.

Specific Curriculum

- The [Center for Media Literacy](#) offers self-guided online courses about media literacy concepts.
- [Common Sense Education](#) offers free self-paced training and hosts live events focused on their digital citizenship curriculum.
- The Digital Inquiry Group has a [professional learning framework](#) to help you learn how to use their [Civic Online Reasoning curriculum](#). They also periodically offer live online trainings in the use of the curriculum, for a fee.
- [Jennifer LaGarde](#) periodically offers book clubs for digging into her book, "Developing Digital Detectives."
- [KQED Teach](#) offers a series of online courses on media literacy & media making. They also offer a path towards [PBS Media Literacy Education Certification](#).
- The [News Literacy Project](#) offers various free opportunities to learn more about using their resources, including the Checkology platform.
- [Project Look Sharp](#) provides [videos](#) that demonstrate how to use their media decoding methods with students.

Other Opportunities

- [Edvolve](#) (Kristen Mattson & LeeAnn Lindsey) offers online courses on teaching digital citizenship, for a fee. There are self-paced courses or districts can pay for live, tailored trainings.
- The Washington State Library offers a self-guided online course called the [Teacher-Librarian Core Curriculum](#) that includes an information literacy & digital citizenship component. [Register for the Washington State Library's Niche Academy courses, including the Teacher-Librarian Core Curriculum course.](#)
