Verification Tool 7: Waiver of Second Party Confirmation Review

Local Education Agencies (LEAs) that use electronic software systems to approve free and reduced-price meal applications may receive a waiver for the Second Party Confirmation Review. **If you are using one of the systems listed below, retain a copy of this document. It is your waiver for Verification SY 2024–25.**

LEAs using a software system not listed, must send a test application showing that the system correctly approves a household of four persons with an income of $3,381.00 monthly as eligible for reduced-price meals. The test application must be sent to SchoolMeals@k12.wa.us. LEAs must retain the waiver for Administrative Reviews and for the State Auditor. LEAs with approved software systems are encouraged to run their own test to be sure the system is approving eligibility applications correctly.
