OSPI Approval

Approved as an Online Course Provider since 2024–25.

Student Performance

Data for school year: N/A

Course completion rate: N/A

Course pass rate: N/A

Overview

We are a growing, innovative, and customer-centric education services company. We partner with schools and districts to implement technology, people, and passion that ignite the student's learning experience. We operate multiple online public schools in other states and serve thousands of students each year.

Our curriculum providers are Accelerate Education and eDynamic Learning (Proximity Learning), both of which OSPI has previously designated as Approved Online Course Providers. As Approved Online Course Providers, Accelerate Education and eDynamic Learning have met a minimum qualification and assurances to meet Washington state learning requirements WAC 392-502. Districts may contract with these providers for online courses based on WAC 392-121-188.

We prioritize three key elements to a student's education:

Engaging Courses. Our course offering is broad. Rigor ranges from credit recovery to Advanced Placement courses. Our elective offerings include middle school career exploration to high school courses in information technology, healthcare, business, design, and more.

Frictionless Technology. We provide a user-friendly interface, mySchool, as the dedicated online learning platform. MySchool tightly integrates our Learning Management System (Buzz), with best in class collaboration tools (Google Workspace for Education), to provide frictionless access to curriculum, recorded videos, interactive quizzes, assignments, and live lessons.

Engaging Instruction. Our teachers are all state-certified. Moreover, they are well trained in online learning theory and practice. We engage in frequent professional development and offer mentoring programs to share best practices that drive student engagement and positive learning outcomes.

Additionally, students that initially struggle with online learning, are enrolled in a formal mentorship program to drive student success. Each student is assigned to a caring, interested, persistent adult. The mentor uses Check and Connect and other proven methods to help struggling students set achievable goals that yield long term success.

Course Offerings

Subjects:

- Arts
- Business
- English Language Arts
- Health & Physical Education
- Mathematics
- Science
- Social Studies
- Technology
- World Languages

Levels:

- Advanced Placement
- Credit Recovery
- Honors
- Standard

Students

We serve any eligible student seeking a personalized learning environment online. Our students are as varied as our curriculum. Our credit recovery courses support students needing a second chance at learning while the academically gifted leverage our Advanced Placement courses to earn college credit while still in high school.

Student-Teacher Contact Requirements

Our students engage with their teachers via text, phone call, email, and video conferencing (Zoom). From the initial welcome call at the start of the semester through the posting of grades, our teachers reach out to our students consistently and, importantly, are available when needed. Mentored students meet with their mentors at least weekly. The pace may be adjusted depending on student performance and individual needs.

Courseware Platform

Our curriculum providers are Accelerate Education and eDynamic Learning (Proximity Learning), both of which OSPI has previously designated as Approved Online Course Providers. As Approved Online Course Providers, Accelerate Education and eDynamic Learning have met a minimum qualification and assurances to meet Washington state learning requirements WAC 392-502. Districts may contract with these providers for online courses based on WAC 392-121-188.
