Overview
Stride Learning Solutions partners with schools and districts to fuel personalized learning and transform the education experience inside and outside the classroom. The company provides innovative solutions for pre-K through 12th grade that empower districts to implement and grow successful online and blended learning programs. Its open, easy-to-use Personalized Learning Platform, PEAK, simplifies administration and enables teachers to customize courses using their own content, more than 500 Stride Learning Solutions courses and titles, third-party partner content, as well as open educational resources. Stride Learning Solutions offers the industry's largest catalog of flexible digital curriculum, certified instruction, professional development, and educational services tailored to district and student needs. Stride Learning Solutions has helped more than 2,000 school districts to improve student outcomes, better serve diverse student populations, and expand students' educational opportunities by leveraging the power of technology-enabled learning.

- Standard

Student-Teacher Contact Requirements

Stride Learning Solutions' teachers use an individualized approach to instruction that builds relationships and motivates students to strive for excellence. Before being assigned a virtual or blended classroom, all Stride Learning Solutions' instructors are required to complete 20 hours of online training. Using the same Learning Management System (LMS) that they will be teaching on, the instructors experience the same environment their online students face while learning skills necessary to teach our curricula. This training covers best practices in online instruction, how to communicate in the virtual environment, as well as skills and tasks associated with the specific platform and tools they will use. Communication is key to the success of any online education program. That's why Stride Learning Solutions' instructors communicate frequently with their students via e-mail, in threaded online discussion boards, during online sessions, and even on the phone.
