- * For the summer term, "5th Year Sr" refers to a student currently in a fifth year, not a non-graduating first-year senior. Continuing Running Start students in a fifth year or beyond are limited to earning credits to meet district, charter school, or tribal compact school's graduation requirements only, and may enroll in no more than 63 college credits for all 12th grade academic years combined (WAC 392-169-055). Students may not enroll in Running Start for the first time in a fifth year or later. These requirements also apply to students who do not intend to graduate from the district or school.
- Per RCW 28A.600.310, school districts must provide documentation of a student's low-income status or free and reduced-price lunch (FRPL) eligibility directly to colleges unless the student does not consent. If that information is not readily available to high school counselors, they must contact their Child Nutrition Services office to request it or establish a process by which it can be shared directly by Child Nutrition Services.

PURPOSE: The Summer Running Start Enrollment Verification Form (RSEVF) is a tool to determine which students are eligible to enroll in the summer quarter and what their available AAFTE is for the summer quarter. Additionally, this form provides the college and high school with the enrolled college classes and notifies the student and their parents/guardians if tuition charges will occur.

The Summer RSEVF is required to enroll in the summer quarter for each student registering for college classes through the Running Start program, including home-based and private school students. Students attending more than one college for summer quarter are required to have a separate Summer RSEVF for each college. When a student will be attending multiple colleges, the appropriate box in the upper right-hand corner of the form must be checked and the name(s) of the college(s) provided.

If the student's college enrollment changes during the summer quarter, a revised Summer RSEVF must be completed and the appropriate box in the upper right-hand corner of the form must be checked.

Eligibility for the Summer Quarter: Students who meet a specific grade level requirement <u>and</u> who have available AAFTE after June are eligible to enroll in Running Start for the summer quarter for a maximum of 10 college credits.

<u>Grade Level Requirement</u>: Students who will complete grade 10, are in grade 11, or are in grade 12 but will not graduate at the end of the standard school year would meet the grade level requirement to enroll in Running Start for the summer quarter. Homeschool students must be deemed eligible to enroll as 11th grade students in the upcoming fall term based upon the grade placement policies of the district through which they intend to access Running Start.

<u>Available Annual Average FTE (AAFTE) Limitation</u>: High school and skill center AAFTE is the 10-month average of the FTE reported for the months September through June. Running Start AAFTE is the 9-month average of the FTE reported for eleven months, October through August.

Students enrolled in both high school and college can be claimed for up to a combined 1.40 AAFTE for the school year. The high school cannot exceed 1.00 AAFTE but the college can claim up to a 1.40 AAFTE.

Students enrolled in both a skill center and high school who have been claimed for a combined FTE more than a 1.0 in any month should be entered as a 1.0 FTE for that month.
