### What to expect

- **AI in Teaching Practices:** Learn about teaching modules to help educators utilize AI to support inclusion and personalized learning for students with disabilities.
- **Global Issues:** Explore integrated-content lessons on the United Nations Sustainable Development Goals, promoting critical thinking, creativity, and collaboration.
- **Media Literacy:** Integrate media literacy into English classes with ready-to-use lessons and assessments. Address the impact of cell phone and social media use on mental health through collaborative lessons in health and English language arts.
- **Social Emotional Learning:** Engage students with dynamic brain breaks that support attention and kinesthetic engagement.
- **U.S. History:** Delve into engaging project-based, interdisciplinary units.

### Who should attend?

- |                                       |                                       |
|---------------------------------------|---------------------------------------|
| • ESD partners                        | • Teacher-Librarians                  |
| • Curriculum Directors                | • Paraeducators                       |
| • Teachers/Instructional Coaches/TOSA | • IT Directors/Technology Specialists |
