Smarter Balanced Summative Assessment

Jacqueline's Test Results

Jacqueline's Results on the Grade 10 ELA Summative

The graph below provides the overall scale score for your student performed on the assessment.

A score of 2548 or above on this test is one way to meet the state graduation pathway requirement for ELA.

What the Performance Levels Mean

Each level is a category of student performance on grade-level skills and knowledge in assessed content.

- **Level 4:** Students consistently demonstrate advanced grade-level knowledge and skills with deep understanding and a full range of complexity.
- **Level 3:** Students consistently demonstrate proficient grade-level knowledge and skills with a broad range of complexity.
- **Level 2:** Students demonstrate foundational grade-level knowledge and skills with a limited range of complexity.
- **Level 1:** Students do not consistently demonstrate grade-level knowledge and skills.

What were some of the things your student was asked to do on this assessment?

- Identify central ideas or themes after reading and listening to literary and informational texts.
- Use details from grade-level texts to support complex inferences.
- Write complex arguments with well-developed supporting details, evidence, or examples.
- Write an appropriate introduction to an argumentative text someone else is writing.
- Choose the best ending for an argumentative text someone else is writing.
- Understand the impact of language choices on meaning and tone in grade-level texts.
- Identify correct paraphrases of sources for a research project on a given topic.

Your Student's Progress

Date Taken	Assessment Name	Percent Points Earned	Performance Level

What is the Washington Smarter Balanced ELA Summative Assessment?

Every spring, students in grades 3–8 and 10 take the Washington Smarter Balanced Summative Assessment in English language arts (ELA). This assessment measures students' performance on the Washington K–12 Learning Standards for ELA, which describes what students should know and be able to do at the end of each grade level. The Smarter Balanced Summative Assessment was created to help policy makers, educators, and the public to understand and support the educational system in Washington state.

The Smarter Balanced ELA Summative Assessment is not a Pass/Fail assessment. Results are only one indicator of a student's performance. These results should be used along with other information, such as classwork and other tests, when making decisions about a student's education.

How can I use these scores?

- Talk with your student about their learning.
- Review class projects, progress reports, and report cards with your student.
- Talk with your student's teacher(s) about your student's learning.

What questions can I ask my student's teacher(s) about these scores?

- Does this score reflect your understanding of what my student knows and can do?
- What else have you observed about what my student knows and can do?
- What are my student's strengths and challenges in ELA?

How can I support my student's learning in ELA?

- Help your student find things they want to read. Your student's teacher can help you locate public libraries and other free local options for finding books, magazines, comic books, and other texts.
- Invite your student to write for everyday purposes that matter to your family or community.
- Ask your student about their reading, conversations, and writing.
 - What are they reading? Do they have favorite authors or texts? Why?
 - What are they writing about? What topics and types of texts do they enjoy? Why?
 - What do they not enjoy reading, writing, or talking about? Why?
 - What are the big ideas in what they are reading, writing, and talking about?
 - How comfortable do they feel speaking in different situations: presentations, class or partner conversations? How could they feel more comfortable?
