Specifically, under this contract, the proposed Contractor will:

Capability statements must address the following state requirements:

- Extensive experience with evaluation and individualized education program (IEP) requirements outlined in Individuals with Disabilities Education Act (IDEA) and Washington state administrative code;
- In-depth knowledge, familiarity, and experience with special education funding options, including the Medicaid/Apple Health billing framework and Safety Net reimbursement funding process, for high-cost, high-need students receiving special education services at private and out-of-state placements; and
- Extensive background and experience coordinating with partners to provide services to high-cost, high-needs students receiving special education services at private and out-of-state placements.

In the absence of other qualified sources, and pending approval by the Department of Enterprise Services, it is OSPI's intent to make a sole source award of the contract mentioned above to Dynamic Education Solutions.

Specific Problem or Need

- *What is the business need or problem that requires this contract?*

In the 2023 legislative session, ESSSB 5315 was created to address issues related to Washington state students placed at in-state and out-of-state nonpublic agencies (NPAs) not receiving special education and related services in conformance with an individualized education program (IEP) that meets the requirements of the federal Individuals with Disabilities Education Act (IDEA).

Specifically, ESSSB 5315 requires establishment of standards for authorizing, monitoring, and investigating private schools approved by the State Board of Education under RCW 28A.305.130, other private in-state entities, and any out-of-state entities, that contract with school districts under RCW 28A.155.060 to provide special education and related services to children with disabilities. The standards must ensure that any children with disabilities placed in authorized entities by school districts have the same rights, protections, and access to special education and related services that they would have if served by a school district.

In accordance with 2023's ESSSB 5315, OSPI must report annually to education committees on placements of students with disabilities at NPAs. The report must include information related to students receiving special education services: academic progress; graduation rates; return rates; restraint and isolation occurrences; and corrective actions. The work of this proposed contract is essential to address the complexity involved in creating processes for the various types of authorized entities (NPAs, for example) that meet the requirements of 2023's ESSSB 5315. This work is necessary to address unforeseen elements of providing special education services to students from Washington state placed at in-state and out-of-state NPAs in conformance with an individualized education program (IEP) that meets the requirements of the federal Individuals with Disabilities Education Act (IDEA).

Sole Source Criteria

- *Describe the unique features, qualifications, abilities or expertise of the contractor proposed for this sole source contract.*

The proposed Contractor, Dr. Sue Ann Bube, of Dynamic Education Solutions, has extensive experience with evaluation and individualized education program requirements that ensure students in NPAs are receiving free appropriate public education (FAPE) and are in compliance with the federal Individuals with Disabilities Education Act. She also has experience assisting LEAs in effectively addressing the needs of students enrolled and transitioning from their resident district to a NPA, and students who are transitioning back to their resident district from an NPA, and how to effectively monitor and provide technical assistance and guidance to NPAs.

Dr. Bube has knowledge around NPAs both in and outside of Washington State. She has served as Director of Special Education services for the Mercer Island School District, an instructor for Seattle University's Special Education Endorsement Academy, President of the Washington Chapter of the Division on Career Development and Transition, and a member of the national committee to support increased employment options for students with disabilities. Additionally, she has taught in elementary, middle, and high school settings providing specially designed instruction to students with a wide range of disabilities.

Dr. Bube has been an ongoing partner for NPA monitoring and is presently leading a community of practice focused on the needs of Washington State regarding NPA management for directors/administrators from other districts who frequently use NPAs. Other directors/administrators look to learn from Dr. Bube due to her unique depth of knowledge and experience. Coupled with her experience as a Special Education Director, Dr. Bube has unmatched specialized knowledge and experience, both locally and nationally, in understanding and working with NPAs to ensure special education services are delivered to students not attending their conventional neighborhood school.

She frequently partners with OSPI, formerly as part of a state needs project to improve post-school outcomes for students with disabilities, and recently as a co-presenter with OSPI at the Washington Association of School Administrators Special Education Directors Academy, which is a group developed to support those who have administrative responsibilities to special education with sessions designed to support leaders with relevant and timely topics presented by local experts and practitioners.

- *What kind of market research did the agency conduct to conclude that alternative sources were inappropriate or unavailable? Provide a narrative description of the agency's due diligence in determining the basis for the sole source contract, including methods used by the agency to conduct a review of available sources such as researching trade publications, industry newsletters and the internet; contacting similar service providers; and reviewing statewide pricing trends and/or agreements.*

The work in this contract requires design and creation of monitoring and complaint reporting systems as well as continued professional development and coaching related to the previously created guidance and resource documents. Such duties are complex, and the agency determined contracting with the proposed nationally recognized expert who has been previously embedded and implementing this work within Washington, is the most appropriate method to accomplish the work required under Washington law (RCW [Section 28A.300.690](#); RCW [Section 28A.155.090](#); RCW [Section 28A.155.240](#)). This work is also nuanced and requires it be conducted by someone who is familiar with federal and state laws on the provision of FAPE to students receiving special education services, LEA operations, contracting/monitoring NPAs, safety-net applications, and complaint reporting.

The agency has routinely conducted numerous internet searches and reviewed the services offered by various placement consultants and placement consultant groups/firms (e.g., [Dean Doering & Associates](#); [The Bertram Group](#)) and determined that such consultants do not specialize in or offer services based on the functions of a statewide system for private placements required under federal law, the IDEA. Such service providers have services and fee structures based on an assessment of the individual needs of students for potential placements rather than holistic systemic approaches to the benefit of public school districts. Likewise, ongoing and in-person consultation (February 2025) with the leadership of The Association of Directors of Development, Admissions, and Marketing ([ADDAM](#)) – a national organization of professionals in the field of child, adolescent, and young adult residential services – also informed the agency's decision. The members of this trade group have a focus on admissions, marketing, and business development, rather than statewide systemic approach to monitoring such services. Recommendations for options beyond the aforementioned types of placement consultants could not be provided. And finally, the agency consulted partners from other states (e.g., California state NPA administrator) and has made inquiries with federal technical assistance providers. No other consultants or service providers capable of blending an understanding of working with private schools, residential treatment facilities, and public school district officials were identified. Dynamic Education Solutions has unmatched specialized knowledge and experience, both locally and nationally, in understanding and working with NPAs to ensure special education services are delivered to students not attending their conventional neighborhood school. Since at least 2020, OSPI has not found another business or resource comparable to Dynamic Education Solutions on the subject matter within the state of Washington.

- *As part of the market research, include a list of statewide contracts review and/or businesses contacted, date of contact, method of contact (telephone, mail, e-mail, other), and documentation demonstrating an explanation of why those businesses could not or would not, under any circumstances, perform the contract; or an explanation of why the agency has determined that no businesses other than the prospective contractor can perform the contract.*

OSPI determined no statewide contracts exist that serve this need or address this scope of work. Dr. Bube currently has a proven track record of being a subject matter expert within the state with whom other school district special education directors have now come to rely upon. The depth of knowledge and the methodology employed by Dynamic Education Solutions conforms with standard national practices and will enable the state of Washington to move forward with improving its own service capacity in this area.

- *Per the Supplier Diversity Policy, DES-090-06: was this purchase included in the agency's forecasted needs report?*
No.

- *Describe what targeted industry outreach was completed to locate small and/or veteran-owned businesses to meet the agency's need.*

The WEBS profile for Dynamic Education Solutions indicates the business is a 100% female-owned Washington-based Micro Business/Small Business.

- *What considerations were given to unbundling the goods and/or services in this contract, which would provide opportunities for Washington small, diverse, and/or veteran-owned businesses. Provide a summary of your agency's unbundling analysis for this contract.*

As evidenced by OSPI's Unbundling Analysis Worksheet, this body of work is unlikely to unbundle because it is a narrowly focused scope of work, and it would not make sense to have more than one contractor executing it. Additionally, the WEBS profile for Dynamic Education Solutions indicates the business is a Washington-based Micro Business/Small Business.

- *Provide a detailed and compelling description that includes quantification of the costs and risks mitigated by contracting with this contractor (i.e. learning curve, follow-up nature).*

Risks will be mitigated by contracting with Dynamic Education Solutions as Dr. Bube is highly qualified and has been a productive partner of OSPI in the past; therefore, she comes to this work ready to hit the ground running with little need for start-up, which will save overall time and cost. If OSPI were to hire new, temporary staff, or engage with a different contractor to complete this work, it would cause serious delays, potentially compromising our ability to adhere to annual requirements established by the legislature in Engrossed Second Substitute Senate Bill 5313.

- *Is the agency proposing this sole source contract because of special circumstances such as confidential investigations, copyright restrictions, etc.? If so, please describe.*

No.

- *Is the agency proposing this sole source contract because of unavoidable, critical time delays or issues that prevented the agency from completing this acquisition using a competitive process? If so, please describe. For example, if time constraints are applicable, identify when the agency was on notice of the need for the goods and/or service, the entity that imposed the constraints, explain the authority of that entity to impose them, and provide the timelines within which work must be accomplished.*

No.

- *What are the consequences of not having this sole source filing approved? Describe in detail the impact to the agency and to services it provides if this sole source filing is not approved.*

If this Sole Source Contract is not approved, OSPI will not be able to carry out ESSSB 5315 obligations in a timely and meaningful manner.

Reasonableness of Cost

- *Since competition was not used as the means for procurement, how did the agency conclude that the costs, fees, or rates negotiated are fair and reasonable? Please make a comparison with comparable contracts, use the results of a market survey, or employ some other appropriate means calculated to make such a determination.*

OSPI's 2024-25 contract with Dynamic Education Solutions focused on the initial creation and implementation of the duties required by 2023's ESSSB 5315 – the cost of that contract was \$227,700. By comparison, the proposed cost of \$75,240 for continuation of services, and extended technical assistance and coaching related to the previous contract, was determined to be reasonable. Payments will be in a set rate format, contingent upon monthly reports documenting the completed deliverables.

If the Contractor would like to limit these pre-existing portions of the work to [non-commercial use](#), the [Creative Commons Attribution-NonCommercial](#) (preferred) or [Creative Commons Attribution-NonCommercial-ShareAlike](#) licenses, version 4.0 or later, are acceptable for these specific sections.

The Contractor warrants and represents that Contractor has all rights and permissions, including intellectual property rights, moral rights and rights of publicity, necessary to apply such a license.

The Contractor warrants that no person or selling agent has been employed or retained to solicit or secure this Contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, excepting bona fide employees or bona fide established agent maintained by the Contractor for the purpose of securing business. The Superintendent shall have the right, in the event of breach of this clause by the Contractor, to annul this Contract without liability or, in its discretion, to deduct from the contract price or consideration or recover by other means the full amount of such commission, percentage, brokerage or contingent fees.

17. Duplicate Payment. The Superintendent shall not pay the Contractor, if the Contractor has charged or will charge the state of Washington or any other party under any other contract or agreement, for the same services or expenses.

18. Electronic signature. 21. Governing Law and Venue. This Contract shall be construed and interpreted in accordance with the laws of the State of Washington and the venue of any action brought hereunder shall be in Superior Court for Thurston County.

22. Indemnification. To the fullest extent permitted by law, Contractor shall indemnify, defend and hold harmless the Superintendent and all officials, agents, and employees of the Superintendent, from and against all claims for injuries or death arising out of or resulting from the performance of this Contract. "Claim" as used in this Contract, means any financial loss, claim, suit, action, damage, or expense, including but not limited to attorney's fees, attributable for bodily injury, sickness, disease, or death, or injury to or destruction of tangible property including loss of use resulting therefrom. Additionally, "claims" shall include but not be limited to, assertions that the use or transfer of any software, book, document, report, film, tape or sound reproduction or material of any kind, delivered hereunder, constitutes an infringement of any copyright, patent, trademark, trade name, or otherwise results in an unfair trade practice or in unlawful restraint of competition. Contractor's obligation to indemnify, defend and hold harmless includes any claim by Contractor's agents, employees, representatives, or any subcontractor or its employees.

Contractor expressly agrees to indemnify, defend, and hold harmless the Superintendent for any claim out of or incident to Contractor's or subcontractor's performance or failure to perform the Contract. Contractor's obligation to indemnify, defend, or hold harmless the Superintendent shall not be eliminated or reduced by any actual or alleged concurrent negligence by Superintendent or its agents, employees, or officials.

Contractor waives its immunity under Title 51 RCW to the extent it is required to indemnify, defend and hold harmless Superintendent and its agents, employees, or officials.

23. Independent Capacity of the Contractor. The parties intend that an independent Contractor relationship will be created by this Contract. The Contractor and his/her employees or agents performing under this Contract are not employees or agents of the Superintendent. The Contractor will not hold himself/herself out as nor claim to be an officer or employee of the

Superintendent or of the state of Washington by reason hereof, nor will the Contractor make any claim or right, privilege, or benefit which would accrue to such employee under law. Conduct and control of the work will be solely with the Contractor.

24. Insurance.

- a. **Worker's Compensation Coverage.** The Contractor shall at all times comply with all applicable worker's compensation, occupational disease, and occupational health and safety laws, statutes, and regulations to the fullest extent applicable. This requirement includes the purchase of industrial insurance coverage for the Contractor's employees, as may now hereafter be required of an "employer" as defined in Title 51 RCW. Such worker's compensation and occupational disease requirements shall include coverage for all employees of the Contractor, and for all employees of any subcontract retained by the Contractor, suffering bodily injury (including death) by accident or disease, which arises out of or in connection with the performance of this Contract. Satisfaction of these requirements shall include, but shall not be limited to:

- 1) Full participation in any required governmental occupational injury and/or disease insurance program, to the extent participation in such a program is mandatory in any jurisdiction;

If the Contractor, or any subcontractor retained by the Contractor, fails to effect and maintain a program of compliance with applicable worker's compensation and occupational disease laws, statutes, and regulations and the Superintendent incurs fines or is required by law to provide benefits to such employees, to obtain coverage for such employees, the Contractor will indemnify the Superintendent for such fines, payment of benefits to Contractor or subcontractor employees or their heirs or legal representatives, and/or the cost of effecting coverage on behalf of such employees. Any amount owed the Superintendent by the Contractor pursuant to the indemnity may be deducted from any payments owed by the Superintendent to the Contractor for the performance of this Contract.

- b. **Proof of Insurance.** Certificates and or evidence satisfactory to the Superintendent confirming the existence, terms and conditions of all insurance required above shall be delivered to the Superintendent within five (5) days of the Contractor's receipt of Authorization to Proceed.

- c. **General Insurance Requirements.** Contractor shall, at all times during the term of the Contract and at its cost and expense, buy and maintain insurance of the types and amounts listed above. Failure to buy and maintain the required insurance may result in the termination of the Contract at the Superintendent's option. By requiring insurance herein, Superintendent does not represent that coverage and limits will be adequate to protect Contractor and such coverage and limits shall not limit Contractor's liability under the indemnities and reimbursements granted to the Superintendent in this Contract.

Contractor shall include all subcontractors as insureds under all required insurance policies, or shall furnish proof of insurance and endorsements for each subcontractor. Subcontractor(s) must comply fully with all insurance requirements stated herein. Failure of subcontractor(s) to comply with insurance requirements does not limit Contractor's liability or responsibility.

25. Licensing and Accreditation Standards. The Contractor shall comply with all applicable local, state, and federal licensing, accreditation and registration requirements/standards, necessary to the performance of this Contract.

26. Limitation of Authority. Only the Superintendent or the Superintendent's delegate by writing (delegation to be made prior to action) shall have the express, implied, or apparent authority to alter, amend, modify, or waive any clause or condition of this Contract. Any such suspension will remain in place until Superintendent receives notification that Contractor, including any

subcontractor, is cooperating with the investigating state agency. In the event Contractor, or subcontractor, is determined to have engaged in discrimination identified at RCW 49.60.530(3), the Superintendent may terminate this Contract in whole or in part, and Contractor, subcontractor, or both, may be referred for debarment as provided in RCW 39.26.200. Contractor or subcontractor may be given a reasonable time in which to cure this noncompliance, including implementing conditions consistent with any court-ordered injunctive relief or settlement agreement.

- d. **Remedies for Breach.** Notwithstanding any provision to the contrary, in the event of Contract termination or suspension for engaging in discrimination, Contractor, subcontractor, or both, shall be liable for contract damages as authorized by law including, but not limited to, any cost difference between the original contract and the replacement or cover contract and all administrative costs directly related to the replacement contract, which damages are distinct from any penalties imposed under Chapter 49.60, RCW. The Superintendent shall have the right to deduct from any monies due to Contractor or subcontractor, or that thereafter become due, an amount for damages Contractor or subcontractor will owe the Superintendent for default under this provision.

28. Overpayments. Contractor shall refund to Superintendent the full amount of any overpayment under this Contract within thirty (30) calendar days of written notice. If Contractor fails to make a prompt refund, Superintendent may charge Contractor one percent (1%) per month on the amount due until paid in full.

29. Payments. No payments in advance or in anticipation of services or supplies to be provided under this Contract shall be made by the Superintendent. All payments to the Contractor are conditioned upon (1) Contractor's submission of a properly executed and supported invoice for payment, including such supporting documentation of performance and supporting documentation of costs incurred or paid, or both as is otherwise provided for in the body of this Contract, and (2) Acceptance and certification by the OSPI Contract Manager or designee of satisfactory performance by the Contractor.

Except as otherwise provided in this Contract, (1) All approvable invoices for payment due to the Contractor shall be paid within thirty (30) calendar days of their submission by the Contractor and acceptance and certification by the OSPI Contract Manager or designee, and (2) All expenses necessary to the Contractor's performance of this Contract not specifically mentioned in the Contract shall be borne in full by the Contractor.

30. Public Disclosure. Contractor acknowledges that the Superintendent is subject to the Washington State Public Records Act, Chapter 42.56 RCW, and that this Contract shall be a public record as defined in RCW 42.56. Any specific information that is claimed by the Contractor to be confidential or proprietary must be clearly identified as such by the Contractor. To the extent consistent with chapter 42.56 RCW, the Superintendent shall maintain the confidentiality of all such information marked confidential or proprietary. If a request is made to view the Contractor's information, the Superintendent will notify the Contractor of the request and the date that such records will be released to the requester unless Contractor obtains a court order enjoining that disclosure. If the Contractor fails to obtain the court order enjoining disclosure, the Superintendent will release the requested information on the date specified.

31. Publicity. The Contractor agrees to submit to the Superintendent all advertising and publicity matters relating to this Contract which in the Superintendent's judgment, Superintendent's name can be implied or is specifically mentioned. The Contractor agrees not to publish or use such advertising and publicity matters without the prior written consent of the Superintendent.

32. Registration with Department of Revenue. The Contractor shall complete registration with the Department of Revenue and be responsible for payment of all taxes due on payments made under this Contract.

33. Records Maintenance. The Contractor shall maintain all books, records, documents, data and other evidence relating to this Contract and performance of the services described herein, including but not limited to accounting procedures and practices which sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this Contract. Contractor shall retain such records for a period of six years following the date of final payment. At no additional cost, these records, including materials generated under the Contract, shall be subject at all reasonable times to inspection, review or audit by the Superintendent, personnel duly authorized by the Superintendent, the Office of the State Auditor, and federal and state officials so authorized by law, regulation or agreement.

37. Subcontracting. Neither the Contractor nor any subcontractor shall enter into subcontracts for any of the work contemplated under this Contract without obtaining prior written approval of the Superintendent. Contractor is responsible to ensure that all terms, conditions, assurances and certifications set forth in this Contract are included in any and all Subcontracts. In no event shall the existence of the subcontract operate to release or reduce liability of the Contractor to the Superintendent for any breach in the performance of the Contractor's duties. This clause does not include contracts of employment between the Contractor and personnel assigned to work under this Contract.

If, at any time during the progress of the work, the Superintendent determines in its sole judgment that any subcontractor is incompetent, the Superintendent shall notify the Contractor, and the Contractor shall take immediate steps to terminate the subcontractor's involvement in the work. The rejection or approval by the Superintendent of any subcontractor

or the termination of a subcontractor shall not relieve the Contractor of any of its responsibilities under the Contract, nor be the basis for additional charges to the Superintendent.

38. Subcontractor Payment Reporting. If a subcontractor is used to perform all or part of the services under this Contract under a separate contract with the Contractor, this Contract is subject to compliance tracking using the State's business diversity management system, [Access Equity](#) (B2Gnow). Graphics & Colors: OSPI Americans with Disabilities Act (ADA) Compliance

Many people with low vision do not see web pages the same as others. Some see only small portions of a computer display at one time. Others cannot see text or images that are too small. Still, others can only see website content if it appears in specific colors.

For these reasons, many people with low vision use specific color and font settings when they access the Internet.

For example, some people with low vision need to use high-contrast settings, such as bold white or yellow letters on a black background. Others need just the opposite – bold black text on a white or yellow background. And, many must use softer, more subtle color combinations.

Tips for Graphic Creation that is Accessible

- Provide good contrast. Be especially careful with light shades of gray, orange, and yellow.
- Use True Text whenever possible. You can see True Text (TT) next to the font selection in most programs.
- Avoid all caps. All caps can be difficult to read and can be read incorrectly by screen readers.
- Use adequate font size. The size can vary depending on the font chosen, but 10 point is usually the minimum.
- Make sure links are recognizable.
- Differentiate links in the body of the page with underline or bold. Links should clearly tell the user where the link will take them (no "click here" links).

- Don't convey content with color alone. Users often can't distinguish or may override page colors.
