

# *Educational Technology Data Collection*

## More about this Collection

OSPI's Educational Technology (EdTech) team distributes an Education Technology survey annually to all school districts and local education agencies (LEAs), including State-Tribal Education Compacts and charter schools. With this survey, OSPI collects essential information about technology infrastructure, cybersecurity, emerging technologies, instructional needs, mobile devices and mobile device policies, and EdTech classroom assessments. These are used to meet several legislative requirements.

## How the Data are Used

Results from this survey are used to guide the efforts of OSPI's EdTech team and meet legislative reporting requirements, and are published on OSPI's website ([Annual State Technology Survey](#)). OSPI's EdTech team uses this to ensure that advocacy efforts are grounded in meaningful, district-level input. The survey is also used to prepare several [legislative reports](#) about classroom-based educational technology assessments ([RCW 28A.655.075](#)), technology initiatives ([RCW 28A.650.070](#)) and recently passed legislation focused on mobile devices ([SB 5346](#)).

## Instructions

### Action Required

The annual Educational Technology survey is emailed to designated District Technology Directors. The survey is intended for all IT Directors (including staff in other roles serving as IT directors) in districts and LEAs across the state of Washington.

The survey has 83 questions and can take up to 45 minutes to complete. We recognize and appreciate the time investment to report this valuable information. So that contacts can prepare before starting the survey, the survey questions are sent with the survey. There is no requirement to complete the survey in a single session; submitters can save their responses, exit the survey, and return to finish later.

### Key Dates

This survey will be distributed on **April 16, 2026**, and closes on **May 31, 2026**.

### Contacts

For questions about or support with the survey, please contact OSPI's EdTech team at [OSPIEdTechDept@k12.wa.us](mailto:OSPIEdTechDept@k12.wa.us).
