

ROOTED IN EXCELLENCE

Aberdeen School District

OSPI recognizes Aberdeen School District in the Breakfast Excellence category. Aberdeen staff surveyed students to learn which breakfast items interested them most. The results showed that students wanted to see the breakfast menu a day in advance so they could decide whether to eat at school or at home. In response, the district installed a light-up breakfast advertising board that students really enjoy, and staff now post the next day's breakfast menu by lunchtime. Since making these changes, there has been an increase in breakfast participation at the high school level.

"We purchased signs, developed smoothie recipes, [and] started offering a lucky tray day in the mornings."
