

ROOTED IN EXCELLENCE

Ellensburg School District

OSPI recognizes Ellensburg School District for excellence in culturally inclusive meals. Ellensburg sought to better serve its Hispanic students by expanding its culturally inclusive meal offerings. With support from the Office of Superintendent of Public Instruction (OSPI) Power Up Your Program: Culturally Inclusive Meals course, the district developed a pozole recipe that now appears on middle and high school menus once a month.

Pork Pozole

Staff introduced the pozole through taste tests with students and families at a district-wide event, and during the middle school lunch period. The district also distributed a survey to students and staff to gather feedback on current menu items and collect ideas for future recipes.

Rooted in Excellence is funded using U.S. Department of Agriculture grant funds. This institution is an equal opportunity provider.
