

ROOTED IN EXCELLENCE

Franklin Pierce School District

OSPI recognizes Franklin Pierce School District for excellence in culturally inclusive meals. The Nutrition Services team at Franklin Pierce High School actively incorporates culturally inclusive meals into the school's menus. Team members walk through the cafeteria and sit with students to ask what they would like to see offered. Students consistently request authentic Asian cuisine.

The team collaborates closely with students to develop meals that reflect their interests and preferences. When students sampled the new Miso Ramen, they rewarded the Nutrition Services team with a standing ovation.

"This team is rooted in excellence with their commitment to the students and offering meals that are culturally inclusive with suggestions from their number one customer: THE STUDENTS!"

*Elaine Krogfoss
Nutrition Services Director*

Miso Ramen

Yakisoba

Katchi Chicken
