

ROOTED IN EXCELLENCE

Lake Washington School District

Lake Washington School District receives recognition for excellence in culturally inclusive meals. Nutrition Services staff intentionally redesigned food service operations to better reflect student diversity. Approximately 40% of enrolled students identify as being of Southeast Asian descent, and the team added culturally inclusive recipes, such as bánh mì, to school menus.

Lake Washington also offers vegetarian options daily and removed pork products from elementary and middle school menus to ensure broader acceptability. During the 2025–26 school year, the district introduced Ramadan Meal Kits for students using the USDA waiver, further supporting cultural and religious inclusion.
