

ROOTED IN EXCELLENCE

Selkirk School District

OSPI recognizes Selkirk School District for excellence in the Farm to School category. As a recipient of a Washington State Department of Agriculture Farm to School Purchasing Grant, Selkirk School District actively supports local farmers and increases student access to fresh, local foods. The district regularly purchases products directly from a ranch located just 10 miles from the school.

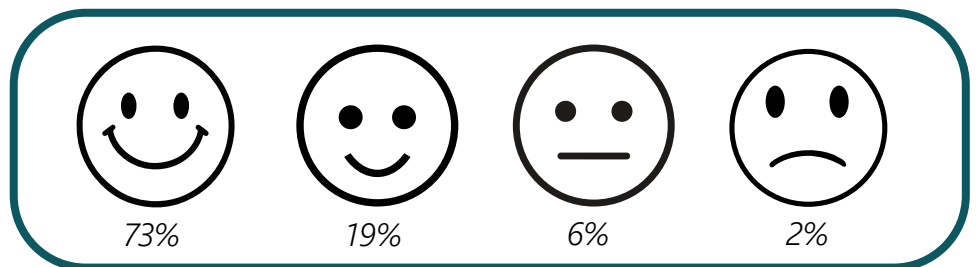

During the 2025–26 school year, Selkirk hosted a Farm to School Week celebration that featured local foods, educational signage, and a farmer visit. These activities gave students the opportunity to learn firsthand where their food comes from.

"We take pride in our menu planning on focus on scratch and speed-scratch cooking, exposing students to homemade meals and local foods they may not otherwise have the opportunity to try."
